

## ASSIGNMENT - 3

Date	18 October 2022
Name	DAKSHNAMURTHY S
Team ID	PNT2022TMID21617
Roll No	19CS018

### 1. Create a bucket in cloud Account:

The screenshot displays the IBM Cloud Object Storage management interface. The browser address bar shows the URL: `cloud.ibm.com/objectstorage/crn%3A1%3Abluemix%3Apublic%3Acloud-object-storage%3Aglobal%3Aa%2F89f6ec88dece48e8b2156880bea3761c%3A8...`. The left sidebar contains navigation options: IBM Cloud, Cloud Object Storage, Storage instances, Cloud Object Storage-kp, Buckets (selected), Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area shows the bucket 'bucket-dakshnamurthy09' with tabs for Objects, Configuration, and Permissions. A notification banner at the top right states: 'A bucket created successfully! The bucket bucket-dakshnamurthy09 has been created and is now available to add'. Below the notification, there is a section for 'Objects' with a 'Prefix filter' and an 'Upload' button. A message indicates: 'If you're seeing more usage than expected, versions count towards your usage or you may have incomplete uploads Learn more'. The 'Objects' section includes a table with headers: Object name, Archived, Size, and Last modified. Below the table, there is a box with a cube icon and the text: 'Objects Drag and drop files (objects) to upload. An object is your data in fixed form.' At the bottom of this box, it says: 'Drag and drop files (objects) here or click to upload' with a blue button containing a cube icon. The Windows taskbar at the bottom shows the search bar, task view, and various application icons, along with the system clock showing 01:13 PM on 18-10-2022.

## Buckets

Buckets serve as containers for objects, and can be individually configured in terms of their location, resiliency, billing rates, security, and object lifecycle rules.
